Forecast for Sunday 06 Aug 2023

Weather: Bright or sunny spells and scattered showers, perhaps occasionally heavy, through the morning and early afternoon. Tending to become drier and clearer into the late afternoon and evening.

Chance of cloud-free hill tops above 600m: 60% becoming 90%

Low cloud and visibility: Areas of cloud with base 500-600m first thing, but this lifting above the summits through the morning. Cloud may occasionally reach the higher summits in any heavier showers. Generally excellent visibility with superb air clarity allowing far reaching views of distant hills and landmarks, however locally poor/very poor in any morning cloud and briefly becoming moderate or poor in any showers.

Meteorologist's View

A day for layers, with scattered showers around, but also high UV levels in sunny spells in between the showers.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Sun 06 Aug 2023	15.6mm	15.8mm	15.8mm

Forecast for Monday 07 Aug 2023

Weather: Some low cloud developing overnight, but this soon clearing during the morning. A generally dry day with plenty of sunshine for much of the day. Skies turning cloudier through the evening, perhaps with some rain towards midnight.

Maximum wind: West 15 mph gust 25 mph.

Chance of cloud-free hill tops 600m: 90% becoming 20% during the evening.

Low cloud and visibility: Patches of cloud above 500-600m at first, will give some very poor visibility on higher ground at first, but this soon clearing to leave all cloud well above the summits. Otherwise, very good visibility. Widespread cloud developing during the evening base 300-400m.

Temperature: **Valleys:** Plus 8 Celsius rising to plus 19 Celsius.
At 600m: Plus 11 Celsius.
Freezing level: Well above the summits.
